Recommendation Letter

It is a pleasure for me to give you these reference lines of our common BI project at Vodafone D2 Germany. JCommerce has provided us an excellent Oracle Hyperion expert who acts as central contact person for the Vodafone planners.

JCommerce's expert consults the business people of Vodafone about Hyperion planning cube design and implementation. Because of this good cooperation Vodafone asked us for a prolongation of the JCommerce expert for another 3 months.

We hope for JCommerce's approval to our continuation and development of our business relations.

Heiko Gronwald
